CRTronic 100 – CRTronic 150

Efficient and cost-effective

CRTronic 100 and **CRTronic 150** are two new models from the CRTronic product family outstanding for their high processing capacity and favourable price/performance ratio.

New Accelerated correction in interactive mode, free cursor movement forwards and backwards

New Minimum, optimum, and maximum word spacing by choice

New Automatic hyphenation optimized by definition of the minimum number of characters at the end and beginning of lines

New Semiautomatic justification with operator-controlled hyphenation for high-quality composition

Options:

CRTerminal 150, for text input and correction exclusively, offering the same text processing features as the CRTronic

Daisywheel printer (table-top model) for proof print-out and text processing

Data telecommunication equipment for connection to standard modem

Node and link for on-line systemconfiguration of CRTronic and CRTerminal

LCI (Linotype Communication Interface) for data transfer from EDP and word processing systems

CP/M operating system for commercial application

Technical Specifications

CRTronic 100

Point size range	1.5–13.5 mm/4–36 pt
Fonts	Normal fonts on mini-floppy discs
in direct access	Up to 8
in memory	1
Output rate	Up to 40.000 characters/h with 8/8 pt Times, line measure 55 mm german/english text

CRTronic 150

Point size range	1.5–27 mm/4–72 pt
Fonts	Normal fonts on mini-floppy discs
in direct access	Up to 16
in memory	Up to 8
Output rate	Up to 80.000 characters/h with 8/8 pt Times, line measure 55 mm

CRTronic 100 and 150

Operating modes	Endless, justified with automatic hyphenation, semiautomatic
Hyphenation programs	For all Western European and various Eastern European languages
Character generator	Standard: Roman Second character generator for non-Roman languages as option
Mini-floppy disc storage	320 KB (2 drives)
Resolution	Standard: 500 scanlines/cm
Modification of type	Electronic slant; condensed or expanded, also in combination with italic; right/reverse reading
Rules	Vertical and horizontal from 0.1–18 mm in 1/100 mm increments
Multi-column composition	Through electronic buffering, with sufficient capacity for at least one A4 page
Take-up cassette	For up to 2.5 m of photo material

CRTerminal 150

All text processing and editing features of the CRTronic

Mini-floppy disc storage	320 KB (2 drives)

All specifications are subject to alterations without notice. Errors accepted.
